

## TESTIMONIAL FROM

# Johnson & Johnson

*To whom it may concern,*

*Being faced with the task of relocating 660m<sup>2</sup> of Johnson and Johnson office space is a large undertaking.*

*HML had been recommended via CBRE framework to take on this project. Meeting with Leo O'Neill, Marius Lisovskis and the team gave me great confidence, they truly understood our needs and requirements (this of course comes with great experience).*

*One thing I liked about our working relationship was, HML communicated effectively at all levels and offered real solutions when it came to location, space planning, design and furnishings.*

*I found the experience excellent, saving Johnson and Johnson in Vilnius; time and money. Hence, I was only too happy to award the contract to relocate to 520 m<sup>2</sup> offices in Riga the following year, to HML Project Management.*

*I would highly recommend HML Project Management for Project Management Services, Owner Supervisor Services, Lease Negotiation, Effective Space Planning and Design.*

*Yours sincerely,*

*Emily Parry;*

*Senior Real Estate Manager EMEA at Johnson & Johnson.*
